Financial statements
for the year ended 30 June 2016

**OVERSTRAND MUNICIPALITY
ANNUAL FINANCIAL STATEMENTS**

for the year ended 30 June 2016

APPROVAL OF THE ANNUAL FINANCIAL STATEMENTS

I am responsible for the preparation of these annual financial statements, which are set out on pages 1 to 84, in terms of Section 126(1)(a) of the Municipal Finance Management Act and which I have signed on behalf of the Municipality.

I certify that the salaries, allowances and benefits of Councillors, loans made to Councillors, if any, and payments made to Councillors for loss of office, if any, as disclosed in the notes of these annual financial statement are within the upper limits of the framework envisaged in Section 219 of the Constitution, read with the Remuneration of Public Office Bearers Act and the Minister of Provincial and Local Government's determination in accordance with this Act.

D.C. Groenewald

Municipal Manager

25 November 2016

Overstrand Municipality

Financial Statements for the year ended 30 June 2016

Accounting Policies

1. Presentation of Financial Statements

The financial statements have been prepared in accordance with the Standards of Generally Recognised Accounting Practice (GRAP) including any interpretations, guidelines and directives issued by the Accounting Standards Board in accordance with Section 122(3) of the Municipal Finance Management Act, (Act no. 56 of 2003).

These financial statements have been prepared on an accrual basis of accounting and are in accordance with historical cost convention as the basis of measurement, unless specified otherwise.

The financial statements have been prepared on a going-concern basis.

A summary of the significant accounting policies, which have been consistently applied in the preparation of these financial statements, are disclosed below.

These accounting policies are consistent with the previous period.

1.1 Presentation currency

These financial statements are presented in South African Rand, which is the functional currency of the municipality.

1.2 Significant judgements and sources of estimation uncertainty

In preparing the financial statements, management is required to make estimates and assumptions that affect the amounts represented in the financial statements and related disclosures. Use of available information and the application of judgement is inherent in the formation of estimates. Actual results in the future could differ from these estimates which may be material to the financial statements. Significant judgements include:

Impairment testing

The municipality reviews and tests the carrying value of assets when events or changes in circumstances suggest that the carrying amount may not be recoverable. In addition, goodwill is tested on an annual basis for impairment. Assets are grouped at the lowest level for which identifiable cash flows are largely independent of cash flows of other assets and liabilities. If there are indications that impairment may have occurred, estimates are prepared of expected future cash flows for each group of assets. Expected future cash flows used to determine the value in use of goodwill and tangible assets are inherently uncertain and could materially change over time. They are significantly affected by a number of factors.

Provisions

Provisions were raised and management determined an estimate based on the information available. Additional disclosure of these estimates of provisions are included in note 19 - Provisions.

Useful lives of infrastructure and other assets

The municipality's management determines the estimated useful lives and related depreciation charges for the waste water and water networks. This estimate is based on industry norm. Management will increase the depreciation charge where useful lives are less than previously estimated useful lives.

Post retirement benefits

The present value of the post retirement obligation depends on a number of factors that are determined on an actuarial basis using a number of assumptions. The assumptions used in determining the net cost (income) include the discount rate. Any changes in these assumptions will impact on the carrying amount of post retirement obligations.

Receivables from non-exchange transactions

Management made key assumptions and estimations to determine the initial recognition and measurement of revenue on fines using estimated reductions based on historical information.

Overstrand Municipality

Financial Statements for the year ended 30 June 2016

Accounting Policies

1.3 Investment property

Investment property is property (land or a building - or part of a building - or both) held to earn rentals or for capital appreciation or both, rather than for:

- use in the production or supply of goods or services or for
- administrative purposes, or
- sale in the ordinary course of operations.

Owner-occupied property is property held for use in the production or supply of goods or services or for administrative purposes.

Investment property is initially recognised at cost. Transaction costs are included in the initial measurement.

Where investment property is acquired through a non-exchange transaction, its cost is its fair value as at the date of acquisition.

Fair value

Subsequent to initial measurement investment property is measured at fair value.

The fair value of investment property reflects market conditions at the reporting date.

A gain or loss arising from a change in fair value is included in net surplus or deficit for the period in which it arises.

Compensation from third parties for investment property that was impaired, lost or given up is recognised in surplus or deficit when the compensation becomes receivable.

Property interests held under operating leases are classified and accounted for as investment property.

When classification is difficult, the criteria used to distinguish investment property from owner-occupied property and from property held for sale in the ordinary course of operations, are as follows:

- All properties held to earn market-related rentals or for capital appreciation or both and that are not for administrative purposes and that will not be sold in the ordinary course of operations are classified as Investment Properties.
- Land held for currently undetermined future use.
- Leases properties that are held to provide a social (community) service or that are necessary for employees to perform their job functions, but which also generates rental revenue are not seen as Investment Properties. The rental revenue generated is incidental to the purposes for which the property is held.

1.4 Property, plant and equipment

Property, plant and equipment is initially measured at cost.

The cost of an item of property, plant and equipment is the purchase price and other costs attributable to bring the asset to the location and condition necessary for it to be capable of operating in the manner intended by management. Trade discounts and rebates are deducted in arriving at the cost.

Where an asset is acquired through a non-exchange transaction, its cost is its fair value as at date of acquisition.

Where an item of property, plant and equipment is acquired in exchange for a non-monetary asset or assets, or a combination of assets and non-monetary assets, the asset acquired is initially measured at fair value (the cost). If the acquired item's fair value was not determinable, its deemed cost is the carrying amount of the asset(s) given up.

When significant components of an item of property, plant and equipment have different useful lives, they are accounted for as separate items (major components) of property, plant and equipment.

Property, plant and equipment is carried at cost less accumulated depreciation and any impairment losses.

Property, plant and equipment are depreciated on the straight line basis over their expected useful lives to their estimated residual value.

Overstrand Municipality

Financial Statements for the year ended 30 June 2016

Accounting Policies

1.4 Property, plant and equipment (continued)

The useful lives of items of property, plant and equipment have been assessed as follows:

Item	Average useful life in years
Buildings	5 - 30
Furniture and fixtures	3 - 15
Motor vehicles	4 - 10
Office equipment	3 - 15
Infrastructure	
• Roads and paving	3 - 60
• Pedestrian malls	25 - 80
• Electricity	3 - 60
• Water	5 - 100
• Sewerage	10 - 60
• Housing	30
Bins and containers	10 - 15

The residual value, the useful life and depreciation method of each asset are reviewed at least at the end of each reporting date. If the expectations differ from previous estimates, the change is accounted for as a change in accounting estimate.

Reviewing the useful life of an asset on an annual basis does not require the entity to amend the previous estimate unless expectations differ from the previous estimate.

Items of property, plant and equipment are derecognised when the asset is disposed of or when there are no further economic benefits or service potential expected from the use or disposal of the asset.

The gain or loss arising from the derecognition of an item of property, plant and equipment is included in surplus or deficit when the item is derecognised. The gain or loss arising from the derecognition of an item of property, plant and equipment is determined as the difference between the net disposal proceeds, if any, and the carrying amount of the item.

Land is not depreciated as it is deemed to have an indefinite useful life.

Incomplete construction work is stated at historical cost. Depreciation only commences when the asset is available for use.

1.5 Intangible assets

An asset is identifiable if it either:

- is separable, i.e. is capable of being separated or divided from an entity and sold, transferred, licensed, rented or exchanged, either individually or together with a related contract, identifiable assets or liability, regardless of whether the entity intends to do so; or
- arises from binding arrangements (including rights from contracts), regardless of whether those rights are transferable or separable from the municipality or from other rights and obligations.

Intangible assets are initially recognised at cost.

Where an intangible asset is acquired through a non-exchange transaction, its initial cost at the date of acquisition is measured at its fair value as at that date.

An intangible asset is regarded as having an indefinite useful life when, based on all relevant factors, there is no foreseeable limit to the period over which the asset is expected to generate net cash inflows or service potential. Amortisation is not provided for these intangible assets, but they are tested for impairment annually and whenever there is an indication that the asset may be impaired. For all other intangible assets amortisation is provided on a straight line basis over their useful life.

The amortisation period and the amortisation method for intangible assets are reviewed at each reporting date.

Reassessing the useful life of an intangible asset with a finite useful life after it was classified as indefinite is an indicator that the asset may be impaired. As a result the asset is tested for impairment and the remaining carrying amount is amortised over its useful life.

Overstrand Municipality

Financial Statements for the year ended 30 June 2016

Accounting Policies

1.5 Intangible assets (continued)

Amortisation is provided to write down the intangible assets, on a straight line basis, to their residual values as follows:

Item	Average useful life in years
Computer software, other	2 - 5

1.6 Heritage assets

Class of heritage assets means a grouping of heritage assets of a similar nature or function in a municipality's operations that is shown as a single item for the purpose of disclosure in the financial statements.

Cost is the amount of cash or cash equivalents paid or the fair value of the other consideration given to acquire an asset at the time of its acquisition or construction or, where applicable, the amount attributed to that asset when initially recognised in accordance with the specific requirements of other Standards of GRAP.

Fair value is the amount for which an asset could be exchanged, or a liability settled, between knowledgeable, willing parties in an arm's length transaction.

Heritage assets are assets that have a cultural, environmental, historical, natural, scientific, technological or artistic significance and are held indefinitely for the benefit of present and future generations.

An inalienable item is an asset that a municipality is required by law or otherwise to retain indefinitely and cannot be disposed of without consent.

The Municipality classifies assets as heritage assets where the significance as a heritage asset can be determined. In regards to land and buildings all graded sites are classified a Heritage Assets. Furthermore land with a natural significance is not componentised but seen as a single Heritage asset due to all parts contributing together to make up its significance.

Recognition

The municipality recognises a heritage asset as an asset if it is probable that future economic benefits or service potential associated with the asset will flow to the municipality, and the cost or fair value of the asset can be measured reliably.

Initial measurement

Heritage assets are measured at cost.

Where a heritage asset is acquired through a non-exchange transaction, its cost is measured at its fair value as at the date of acquisition.

Subsequent measurement

After recognition as an asset, a class of heritage assets is carried at its cost less any accumulated impairment losses.

Impairment

The municipality assess at each reporting date whether there is an indication that it may be impaired. If any such indication exists, the municipality estimates the recoverable amount or the recoverable service amount of the heritage asset.

Transfers

Transfers from heritage assets are only made when the particular asset no longer meets the definition of a heritage asset.

Transfers to heritage assets are only made when the asset meets the definition of a heritage asset.

Overstrand Municipality

Financial Statements for the year ended 30 June 2016

Accounting Policies

1.6 Heritage assets (continued)

Derecognition

The municipality derecognises heritage assets on disposal, or when no future economic benefits or service potential are expected from its use or disposal.

The gain or loss arising from the derecognition of a heritage asset is determined as the difference between the net disposal proceeds, if any, and the carrying amount of the heritage asset. Such difference is recognised in surplus or deficit when the heritage asset is derecognised.

1.7 Financial instruments

A financial instrument is any contract that gives rise to a financial asset of one entity and a financial liability or a residual interest of another entity.

The amortised cost of a financial asset or financial liability is the amount at which the financial asset or financial liability is measured at initial recognition minus principal repayments, plus or minus the cumulative amortisation using the effective interest method of any difference between that initial amount and the maturity amount, and minus any reduction (directly or through the use of an allowance account) for impairment or uncollectibility.

Derecognition is the removal of a previously recognised financial asset or financial liability from a entity's statement of financial position.

Classification

The entity has the following types of financial assets (classes and category) as reflected on the face of the statement of financial position or in the notes thereto:

Class

Operating lease assets
Receivables from exchange transactions
Receivables from non-exchange transactions
VAT receivable
Consumer debtors
Long term receivables
Cash and cash equivalents
Other financial assets

Category

Financial asset measured at amortised cost
Financial asset measured at amortised cost
Financial asset measured at amortised cost
Financial asset measured at amortised cost
Financial asset measured at amortised cost
Financial asset measured at amortised cost
Financial asset measured at amortised cost
Financial asset measured at fair value

The entity has the following types of financial liabilities (classes and category) as reflected on the face of the statement of financial position or in the notes thereto:

Class

Other financial liabilities
Finance lease obligations
Payables from exchange transactions
Consumer deposits

Category

Financial liability measured at amortised cost
Financial liability measured at amortised cost
Financial liability measured at amortised cost
Financial liability measured at amortised cost

Initial recognition

The municipality recognises a financial asset or a financial liability in its statement of financial position when the municipality becomes a party to the contractual provisions of the instrument.

The municipality recognises financial assets using trade date accounting.

Initial measurement of financial assets and financial liabilities

The municipality measures a financial asset and financial liability initially at its fair value plus transaction costs that are directly attributable to the acquisition or issue of the financial asset or financial liability.

Overstrand Municipality

Financial Statements for the year ended 30 June 2016

Accounting Policies

1.7 Financial instruments (continued)

Subsequent measurement of financial assets and financial liabilities

The municipality measures all financial assets and financial liabilities after initial recognition using the following categories:

- Financial instruments at fair value.
- Financial instruments at amortised cost.
- Financial instruments at cost.

All financial assets measured at amortised cost, or cost, are subject to an impairment review.

Gains and losses

A gain or loss arising from a change in the fair value of a financial asset or financial liability measured at fair value is recognised in surplus or deficit.

For financial assets and financial liabilities measured at amortised cost or cost, a gain or loss is recognised in surplus or deficit when the financial asset or financial liability is derecognised or impaired, or through the amortisation process.

Impairment and uncollectibility of financial assets

The municipality assesses at the end of each reporting period whether there is any objective evidence that a financial asset or group of financial assets are impaired.

Financial assets measured at amortised cost:

If there is objective evidence that an impairment loss on financial assets measured at amortised cost has been incurred, the amount of the loss is measured as the difference between the asset's carrying amount and the present value of estimated future cash flows (excluding future credit losses that have not been incurred) discounted at the financial asset's original effective interest rate. The carrying amount of the asset is reduced directly or through the use of an allowance account. The amount of the loss is recognised in surplus or deficit.

If, in a subsequent period, the amount of the impairment loss decreases and the decrease can be related objectively to an event occurring after the impairment was recognised, the previously recognised impairment loss is reversed directly or by adjusting an allowance account. The reversal does not result in a carrying amount of the financial asset that exceeds what the amortised cost would have been had the impairment not been recognised at the date the impairment is reversed. The amount of the reversal is recognised in surplus or deficit.

The calculation in respect of the impairment of fines receivable (receivables from non-exchange transactions) is based on an assessment of the past payment history of fines per category.

Derecognition

Financial assets

The municipality derecognises a financial asset only when:

- the contractual rights to the cash flows from the financial asset expire, are settled or waived;
- the municipality transfers to another party substantially all of the risks and rewards of ownership of the financial asset; or
- the municipality, despite having retained some significant risks and rewards of ownership of the financial asset, has transferred control of the asset to another party and the other party has the practical ability to sell the asset in its entirety to an unrelated third party, and is able to exercise that ability unilaterally and without needing to impose additional restrictions on the transfer. In this case, the municipality :
 - derecognise the asset; and
 - recognise separately any rights and obligations created or retained in the transfer.

On derecognition of a financial asset in its entirety, the difference between the carrying amount and the sum of the consideration received is recognised in surplus or deficit.

Overstrand Municipality

Financial Statements for the year ended 30 June 2016

Accounting Policies

1.7 Financial instruments (continued)

If a transfer does not result in derecognition because the municipality has retained substantially all the risks and rewards of ownership of the transferred asset, the municipality continues to recognise the transferred asset in its entirety and recognises a financial liability for the consideration received. In subsequent periods, the municipality recognises any revenue on the transferred asset and any expense incurred on the financial liability. Neither the asset, and the associated liability nor the revenue, and the associated expenses are offset.

Financial liabilities

The municipality removes a financial liability (or a part of a financial liability) from its statement of financial position when it is extinguished — i.e. when the obligation specified in the contract is discharged, cancelled, expires or waived.

The difference between the carrying amount of a financial liability (or part of a financial liability) extinguished or transferred to another party and the consideration paid, including any non-cash assets transferred or liabilities assumed, is recognised in surplus or deficit. Any liabilities that are waived, forgiven or assumed by another entity by way of a non-exchange transaction are accounted for in accordance with the Standard of GRAP on Revenue from Non-exchange Transactions (Taxes and Transfers).

1.8 Leases

A lease is classified as a finance lease if it transfers substantially all the risks and rewards incidental to ownership. A lease is classified as an operating lease if it does not transfer substantially all the risks and rewards incidental to ownership.

When a lease includes both land and buildings elements, the entity assesses the classification of each element separately.

Finance leases - lessor

The municipality recognises finance lease receivables as assets on the statement of financial position. Such assets are presented as a receivable at an amount equal to the net investment in the lease.

Finance revenue is recognised based on a pattern reflecting a constant periodic rate of return on the municipality's net investment in the finance lease.

Finance leases - lessee

Finance leases are recognised as assets and liabilities in the statement of financial position at amounts equal to the fair value of the leased property or, if lower, the present value of the minimum lease payments. The corresponding liability to the lessor is included in the statement of financial position as a finance lease obligation.

The discount rate used in calculating the present value of the minimum lease payments is the interest rate implicit in the lease.

Minimum lease payments are apportioned between the finance charge and reduction of the outstanding liability. The finance charge is allocated to each period during the lease term so as to produce a constant periodic rate on the remaining balance of the liability.

Any contingent rents are expensed in the period in which they are incurred.

Operating leases - lessor

Operating lease revenue is recognised as revenue on a straight-line basis over the lease term.

Operating leases - lessee

Operating lease payments are recognised as an expense on a straight-line basis over the lease term. The difference between the amounts recognised as an expense and the contractual payments are recognised as an operating lease asset or liability.

1.9 Inventories

Inventories are initially measured at cost except where inventories are acquired through a non-exchange transaction, then their costs are their fair value as at the date of acquisition.

Overstrand Municipality

Financial Statements for the year ended 30 June 2016

Accounting Policies

1.9 Inventories (continued)

Subsequently inventories are measured at the lower of cost and net realisable value or the lower of cost and current replacement cost.

Inventories are measured at the lower of cost and current replacement cost where they are held for;

- distribution at no charge or for a nominal charge; or
- consumption in the production process of goods to be distributed at no charge or for a nominal charge.

The cost of inventories comprises of all costs of purchase, costs of conversion and other costs incurred in bringing the inventories to their present location and condition.

The cost of inventories is assigned using the weighted average cost formula. The same cost formula is used for all inventories having a similar nature and use to the municipality.

When inventories are sold, the carrying amounts of those inventories are recognised as an expense in the period in which the related revenue is recognised. If there is no related revenue, the expenses are recognised when the goods are distributed, or related services are rendered. The amount of any write-down of inventories to net realisable value or current replacement cost and all losses of inventories are recognised as an expense in the period the write-down or loss occurs. The amount of any reversal of any write-down of inventories, arising from an increase in net realisable value or current replacement cost, are recognised as a reduction in the amount of inventories recognised as an expense in the period in which the reversal occurs.

Water is valued at purified cost insofar as it is stored and controlled in reservoirs at year-end.

Low cost housing properties are subsequently valued at the lower of cost and current replacement cost. Direct costs are accumulated for each separately identifiable development. Costs also include a proportion of overhead costs.

1.10 Impairment of cash-generating assets

Impairment is a loss in the future economic benefits or service potential of an asset, over and above the systematic recognition of the loss of the asset's future economic benefits or service potential through depreciation (amortisation).

Carrying amount is the amount at which an asset is recognised in the statement of financial position after deducting any accumulated depreciation and accumulated impairment losses thereon.

Recoverable amount of an asset or a cash-generating unit is the higher its fair value less costs to sell and its value in use.

Identification

When the carrying amount of a cash-generating asset exceeds its recoverable amount, it is impaired.

The municipality assesses at each reporting date whether there is any indication that a cash-generating asset may be impaired. If any such indication exists, the municipality estimates the recoverable amount of the asset.

Value in use

Value in use of a cash-generating asset is the present value of the estimated future cash flows expected to be derived from the continuing use of an asset and from its disposal at the end of its useful life.

When estimating the value in use of an asset, the municipality estimates the future cash inflows and outflows to be derived from continuing use of the asset and from its ultimate disposal and the municipality applies the appropriate discount rate to those future cash flows.

1.11 Impairment of non-cash-generating assets

Non-cash-generating assets are assets other than cash-generating assets.

Impairment is a loss in the future economic benefits or service potential of an asset, over and above the systematic recognition of the loss of the asset's future economic benefits or service potential through depreciation (amortisation).

Carrying amount is the amount at which an asset is recognised in the statement of financial position after deducting any accumulated depreciation and accumulated impairment losses thereon.

Overstrand Municipality

Financial Statements for the year ended 30 June 2016

Accounting Policies

1.11 Impairment of non-cash-generating assets (continued)

Recoverable service amount is the higher of a non-cash-generating asset's fair value less costs to sell and its value in use.

Identification

When the carrying amount of a non-cash-generating asset exceeds its recoverable service amount, it is impaired.

The municipality assesses at each reporting date whether there is any indication that a non-cash-generating asset may be impaired. If any such indication exists, the municipality estimates the recoverable service amount of the asset.

Value in use

Value in use of non-cash-generating assets is the present value of the non-cash-generating assets remaining service potential.

1.12 Employee benefits

Employee benefits are all forms of consideration given by a municipality in exchange for service rendered by employees.

Other long-term employee benefits are employee benefits (other than post-employment benefits and termination benefits) that are not due to be settled within twelve months after the end of the period in which the employees render the related service.

Composite social security programmes are established by legislation and operate as multi-employer plans to provide post-employment benefits as well as to provide benefits that are not consideration in exchange for service rendered by employees.

A constructive obligation is an obligation that derives from a municipality's actions where by an established pattern of past practice, published policies or a sufficiently specific current statement, the municipality has indicated to other parties that it will accept certain responsibilities and as a result, the municipality has created a valid expectation on the part of those other parties that it will discharge those responsibilities.

Short-term employee benefits

Short-term employee benefits are employee benefits (other than termination benefits) that are due to be settled within twelve months after the end of the period in which the employees render the related service.

Short-term employee benefits include items such as:

- wages, salaries and social security contributions;
- short-term compensated absences (such as paid annual leave and paid sick leave) where the compensation for the absences is due to be settled within twelve months after the end of the reporting period in which the employees render the related employee service;
- bonus, incentive and performance related payments payable within twelve months after the end of the reporting period in which the employees render the related service; and
- non-monetary benefits (for example, medical care, and free or subsidised goods or services such as housing, cars and cellphones) for current employees.

The expected cost of compensated absences is recognised as an expense as the employees render services that increase their entitlement or, in the case of non-accumulating absences, when the absence occurs. The municipality measure the expected cost of accumulating compensated absences as the additional amount that the entity expects to pay as a result of the unused entitlement that has accumulated at the reporting date.

The municipality recognise the expected cost of bonus, incentive and performance related payments when the municipality has a present legal or constructive obligation to make such payments as a result of past events and a reliable estimate of the obligation can be made. A present obligation exists when the entity has no realistic alternative but to make the payments.

Post-employment benefits

Post-employment benefits are employee benefits (other than termination benefits) which are payable after the completion of employment.

Post-employment benefit plans are formal or informal arrangements under which a municipality provides post-employment benefits for one or more employees.

Overstrand Municipality

Financial Statements for the year ended 30 June 2016

Accounting Policies

1.12 Employee benefits (continued)

Multi-employer plans are defined contribution plans under which the municipality pays fixed contributions into a separate entity. The municipality has no legal or constructive obligation to pay further contributions if the fund does not hold sufficient assets to pay all employees the benefits relating to service in the current or prior periods.

The municipality's contributions to the defined contribution funds are established in terms of the rules governing those plans. Contributions are recognised in the Statement of Financial Performance in the period in which the service is rendered by the relevant employees. The municipality has no further payment obligations once the contributions have been paid.

The municipality contributes to various National- and Provincial-administered Defined Benefit Plans on behalf of its qualifying employees. These funds are multi-employer funds. The contributions to the fund obligations for the payment of retirement benefits are charged against revenue in the year they become payable. These defined benefit funds are actuarially valued at least bi-annually on the Projected Unit Credit Method basis. Deficits are recovered through lump sum payments or increased future contributions on a proportional basis from all participating municipalities.

Other post retirement obligations

The municipality provides post-retirement health care benefits, housing subsidies and gratuities upon retirement to some retirees.

The entitlement to post-retirement health care benefits is based on the employee remaining in service up to retirement age and the completion of a minimum service period. The expected costs of these benefits are accrued over the period of employment. Independent qualified actuaries carry out valuations of these obligations. The municipality also provides a gratuity and housing subsidy on retirement to certain employees. An annual charge to income is made to cover both these liabilities.

The amount recognised as a liability for other long-term employee benefits is the net total of the following amounts:

- the present value of the defined benefit obligation at the reporting date;
- minus the fair value at the reporting date of plan assets (if any) out of which the obligations are to be settled directly.

The municipality shall recognise the net total of the following amounts as expense or revenue, except to the extent that another Standard requires or permits their inclusion in the cost of an asset:

- current service cost;
- interest cost;
- the expected return on any plan assets and on any reimbursement right recognised as an asset;
- actuarial gains and losses, which shall all be recognised immediately;
- past service cost, which shall all be recognised immediately; and
- the effect of any curtailments or settlements.

These post-retirement health care benefits are actuarially valued at least bi-annually on the Projected Unit Credit Method basis.

1.13 Provisions and contingencies

Provisions are recognised when:

- the municipality has a present obligation as a result of a past event;
- it is probable that an outflow of resources embodying economic benefits or service potential will be required to settle the obligation; and
- a reliable estimate can be made of the obligation.

The amount of a provision is the best estimate of the expenditure expected to be required to settle the present obligation at the reporting date.

The discount rate is a pre-tax rate that reflects current market assessments of the time value of money and the risks specific to the liability.

Provisions are reviewed at each reporting date and adjusted to reflect the current best estimate. Provisions are reversed if it is no longer probable that an outflow of resources embodying economic benefits or service potential will be required, to settle the obligation.

When the effect of discounting is material, provisions are determined by discounting the expected future cash flows that reflect current market assessments of the time value of money. The impact of the periodic unwinding of the discount is recognised in the Statement of Financial Performance as a finance cost as it occurs.

Overstrand Municipality

Financial Statements for the year ended 30 June 2016

Accounting Policies

1.13 Provisions and contingencies (continued)

A provision is used only for expenditures for which the provision was originally recognised.

Provisions are not recognised for future operating deficits.

If the municipality has a contract that is onerous, the present obligation (net of recoveries) under the contract is recognised and measured as a provision.

Contingent assets and contingent liabilities are not recognised. Contingencies are disclosed in note 41.

1.14 Revenue from exchange transactions

Revenue is the gross inflow of economic benefits or service potential during the reporting period when those inflows result in an increase in net assets, other than increases relating to contributions from owners.

An exchange transaction is one in which the municipality receives assets or services, or has liabilities extinguished, and directly gives approximately equal value (primarily in the form of goods, services or use of assets) to the other party in exchange.

Fair value is the amount for which an asset could be exchanged, or a liability settled, between knowledgeable, willing parties in an arm's length transaction.

Measurement

Revenue is measured at the fair value of the consideration received or receivable, net of trade discounts and volume rebates.

Sale of goods

Revenue from the sale of goods is recognised when all the following conditions have been satisfied:

- the municipality has transferred to the purchaser the significant risks and rewards of ownership of the goods;
- the municipality retains neither continuing managerial involvement to the degree usually associated with ownership nor effective control over the goods sold;
- the amount of revenue can be measured reliably;
- it is probable that the economic benefits or service potential associated with the transaction will flow to the municipality; and
- the costs incurred or to be incurred in respect of the transaction can be measured reliably.

Rendering of services

When the outcome of a transaction involving the rendering of services can be estimated reliably, revenue associated with the transaction is recognised by reference to the stage of completion of the transaction at the reporting date. The outcome of a transaction can be estimated reliably when all the following conditions are satisfied:

- the amount of revenue can be measured reliably;
- it is probable that the economic benefits or service potential associated with the transaction will flow to the municipality;
- the stage of completion of the transaction at the reporting date can be measured reliably; and
- the costs incurred for the transaction and the costs to complete the transaction can be measured reliably.

Service charges relating to electricity and water are based on consumption. Meters are read on a monthly basis and are recognised as revenue when invoiced. Provisional estimates of consumption, based on the consumption history, are made monthly when meter readings have not been performed. The provisional estimates of consumption are recognised as revenue when invoiced, except at year-end when estimates of consumption up to year-end are recorded as revenue without being invoiced. Adjustments to provisional estimates of consumption are made in the invoicing period in which meters have been read. These adjustments are recognised as revenue in the invoicing period. In respect of estimates of consumption between the last reading date and the reporting date, an accrual is made based on the average monthly consumption from the first reading after the reporting date.

Revenue from the sale of pre-paid electricity units is recognised when the risks and rewards of ownership has passed to the buyer.

Overstrand Municipality

Financial Statements for the year ended 30 June 2016

Accounting Policies

1.14 Revenue from exchange transactions (continued)

Revenue received from pre-paid electricity sales are deferred and recognised as revenue on the consumption basis, commencing on the date of purchase. The consumption of pre-paid electricity is measured by using a trend analysis and other historical data about electricity usage, including how often an electricity card is purchased or additional units of electricity loaded onto a pre-paid card.

Service charges relating to refuse removal are recognised on a monthly basis in arrears by applying the approved tariff to each property that has a water connection. Tariffs are determined per category of property usage and are levied monthly based on the number of refuse containers on each property, regardless of whether or not all containers are emptied during the month.

Service charges from sewerage and sanitation are charged on both vacant and developed property using the tariffs approved from Council and are levied monthly.

Interest and other revenue

Revenue arising from the use by others of entity assets yielding interest, royalties and dividends or similar distributions is recognised when:

- It is probable that the economic benefits or service potential associated with the transaction will flow to the municipality, and

Interest is recognised, in surplus or deficit, using the effective interest rate method.

Service fees included in the price of the product are recognised as revenue over the period during which the service is performed.

Revenue arising from the application of the approved tariff of charges is recognised when the service is rendered by applying the relevant approved tariff. This includes the issuing of licences and permits.

Income for agency services is recognised on a monthly basis once the income collected on behalf of agents has been quantified. The income recognised is in terms of the agency agreement.

Finance income from the sale of housing by way of instalment sales agreements or finance leases is recognised on a time proportion basis.

1.15 Revenue from non-exchange transactions

Fines are economic benefits or service potential received or receivable by entities, as determined by a court or other law enforcement body, as a consequence of the breach of laws or regulations.

Non-exchange transactions are transactions that are not exchange transactions. In a non-exchange transaction, an municipality either receives value from another municipality without directly giving approximately equal value in exchange, or gives value to another municipality without directly receiving approximately equal value in exchange.

Restrictions on transferred assets are stipulations that limit or direct the purposes for which a transferred asset may be used, but do not specify that future economic benefits or service potential is required to be returned to the transferor if not deployed as specified.

Taxes are economic benefits or service potential compulsorily paid or payable to entities, in accordance with laws and or regulations, established to provide revenue to government. Taxes do not include fines or other penalties imposed for breaches of the law.

Transfers are inflows of future economic benefits or service potential from non-exchange transactions, other than taxes.

Recognition

An inflow of resources from a non-exchange transaction recognised as an asset is recognised as revenue, except to the extent that a liability is also recognised in respect of the same inflow.

As the municipality satisfies a present obligation recognised as a liability in respect of an inflow of resources from a non-exchange transaction recognised as an asset, it reduces the carrying amount of the liability recognised and recognises an amount of revenue equal to that reduction.

Overstrand Municipality

Financial Statements for the year ended 30 June 2016

Accounting Policies

1.15 Revenue from non-exchange transactions (continued)

Measurement

Revenue from a non-exchange transaction is measured at the amount of the increase in net assets recognised by the municipality.

When, as a result of a non-exchange transaction, the municipality recognises an asset, it also recognises revenue equivalent to the amount of the asset measured at its fair value as at the date of acquisition, unless it is also required to recognise a liability. Where a liability is required to be recognised it will be measured as the best estimate of the amount required to settle the obligation at the reporting date, and the amount of the increase in net assets, if any, recognised as revenue. When a liability is subsequently reduced, because the taxable event occurs or a condition is satisfied, the amount of the reduction in the liability is recognised as revenue.

Taxes

The municipality recognises an asset in respect of taxes when the taxable event occurs and the asset recognition criteria are met.

Resources arising from taxes satisfy the definition of an asset when the municipality controls the resources as a result of a past event (the taxable event) and expects to receive future economic benefits or service potential from those resources. Resources arising from taxes satisfy the criteria for recognition as an asset when it is probable that the inflow of resources will occur and their fair value can be reliably measured. The degree of probability attached to the inflow of resources is determined on the basis of evidence available at the time of initial recognition, which includes, but is not limited to, disclosure of the taxable event by the taxpayer.

The municipality analyses the taxation laws to determine what the taxable events are for the various taxes levied.

The taxable event for value added tax is the undertaking of taxable activity during the taxation period by the taxpayer.

The taxable event for property tax is the passing of the date on which the tax is levied, or the period for which the tax is levied, if the tax is levied on a periodic basis.

Taxation revenue is determined at a gross amount. It is not reduced for expenses paid through the tax system.

Transfers

Apart from Services in kind, which are not recognised, the municipality recognises an asset in respect of transfers when the transferred resources meet the definition of an asset and satisfy the criteria for recognition as an asset.

Transferred assets are measured at their fair value as at the date of acquisition.

Fines

Fines constitute both spot fines and camera fines. Fines are recognised as revenue when the receivable meets the definition of an asset and satisfies the criteria for recognition as an asset. It is measured at the best estimate, based on past experience, of the amount of revenue the municipality is entitled to collect.

Subsequent to initial recognition and measurement, the municipality assesses the collectability of the revenue and recognises a separate impairment loss, where appropriate.

Bequests

Bequests that satisfy the definition of an asset are recognised as assets and revenue when it is probable that the future economic benefits or service potential will flow to the municipality, and the fair value of the assets can be measured reliably.

Gifts and donations, including goods in-kind

Gifts and donations, including goods in kind, are recognised as assets and revenue when it is probable that the future economic benefits or service potential will flow to the municipality and the fair value of the assets can be measured reliably.

Overstrand Municipality

Financial Statements for the year ended 30 June 2016

Accounting Policies

1.15 Revenue from non-exchange transactions (continued)

Services in-kind

Services in-kind are not recognised.

1.16 Borrowing costs

Borrowing costs are interest and other expenses incurred by an entity in connection with the borrowing of funds.

Borrowing costs are recognised as an expense in the period in which they are incurred.

1.17 Comparative figures

Where necessary, comparative figures have been reclassified to conform to changes in presentation in the current year.

1.18 Unauthorised expenditure

Unauthorised expenditure means:

in relation to a municipality, means any expenditure incurred by a municipality otherwise than in accordance with section 15 or 11(3), and includes—

- overspending of the total amount appropriated in the municipality's approved budget
- overspending of the total amount appropriated for a vote in the approved budget;
- expenditure from a vote unrelated to the department or functional area covered by the vote;
- expenditure of money appropriated for a specific purpose, otherwise than for that specific purpose;
- spending of an allocation referred to in paragraph (b), (c) or (d) of the definition of "allocation" otherwise than in accordance with any conditions of the allocation; or
- a grant by the municipality otherwise than in accordance with this Act;

All expenditure relating to unauthorised expenditure is recognised as an expense in the statement of financial performance in the year that the expenditure was incurred. The expenditure is classified in accordance with the nature of the expense, and where recovered, it is subsequently accounted for as revenue in the statement of financial performance.

1.19 Fruitless and wasteful expenditure

Fruitless expenditure means expenditure which was made in vain and would have been avoided had reasonable care been exercised.

All expenditure relating to fruitless and wasteful expenditure is recognised as an expense in the statement of financial performance in the year that the expenditure was incurred. The expenditure is classified in accordance with the nature of the expense, and where recovered, it is subsequently accounted for as revenue in the statement of financial performance.

1.20 Irregular expenditure

According to section 1 of the MFMA: "irregular expenditure", in relation to a municipality or municipal entity, means -

- (a) expenditure incurred by a municipality or municipal entity in contravention of, or that is not in accordance with, a requirement of this Act and which has not been condoned in terms of section 170; or
 - (b) expenditure incurred by a municipality or municipal entity in contravention of, or that is not in accordance with, a requirement of the Municipal Systems Act and which has not been condoned in terms of that Act; or
 - (c) expenditure incurred by a municipality in contravention of, or that is not in accordance with, a requirement of the Public Office-Bearers Act, 1998 (Act No. 20 of 1998); or
 - (d) expenditure incurred by a municipality or municipal entity in contravention of, or that is not in accordance with, a requirement of the supply chain management policy of the municipality or entity or any of the municipality's by-laws giving effect to such policy and which has not been condoned in terms of such policy or by-law,
- but excludes expenditure by a municipality which falls within the definition of unauthorised expenditure.

Irregular expenditure that was incurred and identified during the current financial and which was condoned before year end and/or before finalisation of the financial statements must also be recorded appropriately in the irregular expenditure register. In such an instance, no further action is also required with the exception of updating the note to the financial statements.

Irregular expenditure that was incurred and identified during the current financial year and for which condonement is being awaited at year end must be recorded in the irregular expenditure register. No further action is required with the exception of updating the note to the financial statements.

Overstrand Municipality

Financial Statements for the year ended 30 June 2016

Accounting Policies

1.20 Irregular expenditure (continued)

Where irregular expenditure was incurred in the previous financial year and is only condoned in the following financial year, the register and the disclosure note to the financial statements must be updated with the amount condoned.

Irregular expenditure that was incurred and identified during the current financial year and which was not condoned by the National Treasury or the relevant authority must be recorded appropriately in the irregular expenditure register. If liability for the irregular expenditure can be attributed to a person, a debtor's account must be created if such a person is liable in law. Immediate steps must thereafter be taken to recover the amount from the person concerned. If recovery is not possible, the council may write off the amount and disclose such in the relevant note to the financial statements. The irregular expenditure register must also be updated accordingly.

Irregular expenditure is expenditure that is contrary to the Municipal Finance Management Act (Act No.56 of 2003), the Municipal Systems Act (Act No.32 of 2000), and the Public Office Bearers Act (Act No. 20 of 1998) or is in contravention of the municipality's supply chain management policy. Irregular expenditure excludes unauthorised expenditure. Irregular expenditure is accounted for as expenditure in the Statement of Financial Performance and where recovered, it is subsequently accounted for as revenue in the Statement of Financial Performance.

1.21 Housing development fund

The Housing Development Fund was established in terms of the Housing Act, (Act No. 107 of 1997). Loans from national and provincial government used to finance housing selling schemes undertaken by the municipality were extinguished on 1 April 1998 and transferred to a Housing Development Fund. Housing selling schemes, both complete and in progress as at 1 April 1998, were also transferred to the Housing Development Fund. In terms of the Housing Act, all proceeds from housing developments, which include rental income and sales of houses, must be paid into the Housing Development Fund. Monies standing to the credit of the Housing Development Fund can be used only to finance housing developments within the municipal area subject to the approval of the Provincial MEC responsible for housing.

Any contributions to or from the fund are shown as transfers in the Statement of Changes in Net Assets.

1.22 Internal reserves

Self insurance reserve

The municipality has a Self-Insurance Reserve to set aside amounts to offset potential losses or claims that cannot be insured externally. The balance of the self-insurance fund is invested in short-term cash investments.

Claims are settled by transferring a corresponding amount from the self-insurance reserve to the accumulated surplus.

1.23 Budget information

Municipality are typically subject to budgetary limits in the form of appropriations or budget authorisations (or equivalent), which is given effect through authorising legislation, appropriation or similar.

General purpose financial reporting by municipality shall provide information on whether resources were obtained and used in accordance with the legally adopted budget.

The approved budget is prepared on a accrual basis and presented by functional classification linked to performance outcome objectives.

The approved budget covers the fiscal period from 2015/07/01 to 2016/06/30.

The financial statements and the budget are on the same basis of accounting therefore a comparison with the budgeted amounts for the reporting period have been included in the Statement of comparison of budget and actual amounts.

The Statement of comparative and actual information has been included in the financial statements as the recommended disclosure when the financial statements and the budget are on the same basis of accounting as determined by National Treasury.

Comparative information is not required.

Overstrand Municipality

Financial Statements for the year ended 30 June 2016

Accounting Policies

1.24 Related parties

Management are those persons responsible for planning, directing and controlling the activities of the municipality, including those charged with the governance of the municipality in accordance with legislation, in instances where they are required to perform such functions.

Only transactions with related parties not at arm's length or not in the ordinary course of business are disclosed.

1.25 Changes in accounting policies, estimates and errors

Changes in accounting policies that are effected by management are applied retrospectively in accordance with GRAP 3 requirements, except to the extent that it is impracticable to determine the period-specific effects or the cumulative effect of the change in policy. In such cases the municipality shall restate the opening balances of assets, liabilities and net assets for the earliest period for which retrospective restatement is practicable.

Changes in accounting estimates are applied prospectively in accordance with GRAP 3 requirements. Details of changes in estimates are disclosed in the notes to the annual financial statements where applicable.

Correction of errors is applied retrospectively in the period in which the error has occurred in accordance with GRAP 3 requirements, except to the extent that it is impracticable to determine the period-specific effects or the cumulative effect of the error. In such cases the municipality shall restate the opening balances of assets, liabilities and net assets for the earliest period for which retrospective restatement is practicable.

1.26 Events after reporting date

Events after reporting date that are classified as adjusting events are accounted for in the annual financial statements. The events after reporting date that are classified as non-adjusting events are disclosed in the notes to the annual financial statements.

1.27 Offsetting

Assets, liabilities, revenue and expenses have not been offset except when offsetting is required or permitted by a Standard of GRAP.

1.28 Standards issued but not yet effective

The following GRAP standards have been issued but are not yet effective and have not been early adopted by the municipality:

GRAP 18	Segment reporting - issued March 2015
GRAP 32	Service concession arrangements: Grantor - issued August 2013
GRAP 108	Statutory receivables - issued September 2013
GRAP 109	Accounting by Principals and Agents - issued July 2015

Application of all the above GRAP standards will be effective from the date to be announced by the Minister of Finance. This date is not currently available.

The ASB Directive 5 paragraph 29 allows for the municipality to apply the principles established in a standard of GRAP that has been issued, but is not yet effective, in developing an appropriate accounting policy dealing with a particular transaction or event before applying paragraph 12 of GRAP 3 on Accounting policies, Changes in accounting estimates and Errors.

The municipality applied the principles established in a standard of GRAP that has been issued, but is not yet effective, in developing an appropriate accounting policy dealing with the following transactions, but have not early adopted these standards:

GRAP 20	Related parties - issued June 2011
---------	------------------------------------

Management has considered all the above standards issued but not yet effective and anticipates that the adoption of these standards will not have a significant impact on the financial position, financial performance or cash flows of the municipality.

	5,755,980	12,921	141,249	(404,459)	5,505,691

Other information

Intangible assets with indefinite lives:

Water rights	2,360,000	2,360,000
--------------	-----------	-----------

The municipality entered into a contract with Kraai Bosch Plase (Pty) Ltd on 28 May 1999. The useful life of the water right is considered to be indefinite as the contract does not define when the municipality will cease to enjoy the right to use the water from the Kraaibosch dam. There is no reason to believe that the right to the Kraaibosch dam has a limited useful life due to the condition of the dam. Regular assessments are performed to determine whether the conditions that existed at the inception of the contract have changed.

Other intangible assets	708,570	708,570
-------------------------	---------	---------

The municipality entered into a contract with Bytes Systems Integration on 7 November 2014. The useful life of the software is considered to be indefinite as the contract does not define when the municipality will cease to enjoy the right to use the software. There is no reason to believe that the right to the software has a limited useful life due to the condition thereof. Regular assessments are performed to determine whether the conditions that existed at the inception of the contract have changed.

Stamp collections, military insignia, medals, coin	166,309	166,309
	124,182,198	124,182,198

Reconciliation of heritage assets - 2015

	Opening balance	Disposals	Total
Conservation areas	126,015,889	(2,000,000)	124,015,889
Stamp collections, military insignia, medals, coin	166,309	-	166,309
	126,182,198	(2,000,000)	124,182,198

Certain conservation land are carried at Rnvl value as there is no market and therefore their cost/fair value cannot be reliably measured.

6. Other financial assets

Designated at fair value

Liberty - Sinking funds	27,777,661	21,571,127
Momentum - Sinking fund	1,962,352	1,577,715
	29,740,013	23,148,842

Non-current assets

Designated at fair value	29,740,013	23,148,842
--------------------------	------------	------------

In determining the recoverability of other financial assets, the Overstrand Municipality considers any change in the credit quality of the other financial assets from the date the credit was initially granted up to the reporting date.

Overstrand Municipality

Financial Statements for the year ended 30 June 2016

Notes to the Financial Statements

Figures in Rand	2016	2015
-----------------	------	------

7. Employee benefit obligations

Defined benefit plan

The plan is a post employment health benefit plan.

Post-employment health care benefit plan

The municipality provides certain post-employment health care benefits by funding the medical aid contributions of qualifying retired members of the municipality. According to the rules of the Medical Aid Funds, with which the municipality is associated, a member (who is on the current Conditions of Service) is entitled to remain a continued member of such medical aid fund on retirement, in which case the municipality is liable for a certain portion of the medical aid membership fee. The municipality operates an unfunded defined benefit plan for these qualifying employees. No other post-retirement benefits are provided to these employees.

The municipality makes monthly contributions for health care arrangements to the following medical aid schemes:

- Bonitas;
- LA Health;
- Prosano; - Hosmed;
- Samwumed; and
- Keyhealth

The most recent actuarial valuations of plan assets and the present value of the defined benefit obligation were carried out at 30 June 2016 by ARCH Actuarial Consulting, Fellow of the Actuarial Society of South Africa, including projections for the 2017 and 2018 financial periods. The present value of the defined benefit obligation, and the related current service cost and past service cost, were measured using the Projected Unit Credit Method.

The members of the Post-employment health care benefit plan are made up as follows:

In-service members (employees)	357	367
Continuation members (retirees, widowers and orphans)	80	71
	437	438

The amounts recognised in the statement of financial position are as follows:

Carrying value

Present value of the defined benefit obligation-wholly unfunded	(113,188,465)	(109,634,000)
Non-current liabilities	(110,245,237)	(107,289,538)
Current liabilities	(2,943,228)	(2,344,462)
	(113,188,465)	(109,634,000)

Changes in the present value of the defined benefit obligation are as follows:

Opening balance	109,634,000	97,708,508
Net expense recognised in the statement of financial performance	3,554,465	11,925,492
	113,188,465	109,634,000

Net expense recognised in the statement of financial performance

Current service cost	5,949,711	5,461,583
Past service cost	(6,724,982)	-
Interest cost	9,695,997	8,637,625
Actuarial (gains) losses	(2,540,148)	298,203
Benefits	(2,826,113)	(2,471,919)
	3,554,465	11,925,492

Overstrand Municipality

Financial Statements for the year ended 30 June 2016

Notes to the Financial Statements

Figures in Rand	2016	2015
-----------------	------	------

7. Employee benefit obligations (continued)

Key assumptions used

Assumptions used at the reporting date:

Discount rates used	9.10 %	8.94 %
Medical cost trend rates	8.22 %	7.86 %
Net discount rate	0.82 %	1.00 %

Management assessed the assumptions used and found it to be adequate.

Other assumptions

Assumed healthcare cost trends rates have a significant effect on the amounts recognised in surplus or deficit. A one percentage point change in assumed healthcare cost trends rates would have the following effects:

	One percentage point increase	One percentage point decrease
Effect on the aggregate of the service cost and interest cost	18,591,600	13,297,500
Effect on defined benefit obligation	131,714,000	98,193,000

Amounts for the current and previous four years are as follows:

	2016 R	2015 R	2014 R	2013 R	2012 R
Defined benefit obligation	113,188,465	109,634,000	97,708,508	81,920,000	73,505,000

Defined contribution plan

It is the policy of the municipality to provide retirement benefits to all its employees. A number of defined contribution plans, all of which are subject to the Pensions Fund Act exist for this purpose.

The municipality is under no obligation to cover any unfunded benefits.

8. Long term receivables

Housing selling scheme	14,151	15,531
Sport clubs	39,618	52,878
	53,769	68,409

Non-current assets

Long term receivables	40,200	53,303
-----------------------	--------	--------

Current assets

Long term receivables	13,569	15,106
	53,769	68,409

In determining the recoverability of long term receivables, the Overstrand Municipality considers any change in the credit quality of the long term receivables from the date the credit was initially granted up to the reporting date.

	28,742,328	10,574,939

Inventories recognised as an expense during the period:

Water	24,370,465	27,508,942
Stores and materials	10,138,794	9,206,886
Low cost housing	11,011,142	3,559,722
	45,520,401	40,275,550

10. Receivables from exchange transactions ¹

Trade debtors	14,052,211	18,350,220
Prepayments	3,266,091	2,660,657
Deposits	592,467	560,813
Accrued interest	42,603	-
Other debtors	1,528,103	1,421,578
	19,481,475	22,993,268

In determining the recoverability of receivables from exchange transactions, the Overstrand Municipality considers any change in the credit quality of the trade and other receivables from the date the credit was initially granted up to the reporting date.

11. Receivables from non-exchange transactions

Fines	14,588,659	13,123,828
Government grants and subsidies	5,578,253	5,578,253
Control accounts - sundry	4,354,756	2,903,418
	24,521,668	21,605,499

In determining the recoverability of receivables from non-exchange transactions, the Overstrand Municipality considers any change in the credit quality of the trade and other receivables from the date the credit was initially granted up to the reporting date.

Receivables from non-exchange transactions impaired

Revenue from fines recognised for the period amounts to R 23,893,259 (2015: R 18,563,196).

Fines receivable from non-exchange transactions after the provision of impairment amounted to R 14,588,659 (2015: R 13,123,828).

The amount provided for impairment was R 29,715,797 (2015 R 13,163,857)

Analysis of fines past due but not impaired

< 12 months	1,464,831	3,949,279
> 1 year	13,123,828	9,174,549

¹ See Note 13 for further details of receivables from exchange and non-exchange transactions

Overstrand Municipality

Financial Statements for the year ended 30 June 2016

Notes to the Financial Statements

Figures in Rand	2016	2015
-----------------	------	------

11. Receivables from non-exchange transactions (continued)

Reconciliation of provision for impairment of receivables from non-exchange transactions

Opening balance	13,163,857	6,648,492
Provision for impairment	16,551,940	6,515,365
	29,715,797	13,163,857

The calculation in respect of the impairment of fines receivable (receivables from non-exchange transactions) is based on an assessment of the past payment history of fines per category. The total average collectability of fines were 51% (2015: 59%).

The calculation for initial recognition and measurement in respect of fines reduced and or cancelled is based on an assessment of past reduced and or cancelled history of fines per category. The total average estimated reductions used were 52% (2015: 52%).

12. VAT receivable

VAT	5,716,835	6,356,063
-----	-----------	-----------

In determining the recoverability of VAT receivable, the Overstrand Municipality considers any change in the credit quality of the VAT receivable from the date the credit was initially granted up to the reporting date.

Overstrand Municipality is registered on the cash/payment basis for VAT.

-----------------	------	------

16. Finance lease obligation (continued)

The municipality has entered into contracts with suppliers for the rental of office equipment and has agreed to accept the option to purchase the equipment at the end of the lease term.

The average lease term was 3 years and the average effective borrowing rate was 13% (2015: 13%).

Interest rates are fixed at the contract date. All leases have fixed repayments and no arrangements have been entered into for contingent rent.

Refer to note 3 for the carrying value of assets under finance lease.

17. Unspent conditional grants and receipts

Unspent conditional grants and receipts comprises of:

Unspent conditional grants and receipts

Financial management grant	-	589,614
Human settlements development grant	105,817	-
Financial management support grant	-	212,716

Overstrand Municipality

Financial Statements for the year ended 30 June 2016

Notes to the Financial Statements

Figures in Rand	2016	2015
-----------------	------	------

18. Borrowings (continued)

The fair values of the financial liabilities were determined as follows:

- The management of the municipality is of the opinion that the carrying value of Financial Assets and Financial Liabilities recorded at amortised cost in the Annual Financial Statements approximate their fair values. The fair value of Financial Assets and Financial Liabilities were determined after considering the standard terms and conditions of agreements entered into between the municipality and other parties as well as the current payment ratio's of the municipality's debtors.
- At the reporting date there are no significant concentrations of credit risk for other financial liabilities. The carrying amount reflected above represents the municipality's maximum exposure to credit risk for such other financial liabilities.

Refer to note 44 for maturity analysis of financial liabilities.

19. Provisions

Overstrand Municipality

Financial Statements for the year ended 30 June 2016

Notes to the Financial Statements

Figures in Rand	2016	2015
-----------------	------	------

19. Provisions (continued)

Rehabilitation of tip sites

Provision is made in terms of the Overstrand Municipality's licensing stipulations on the landfill sites, for the estimated cost of rehabilitating landfill sites. The estimation of landfill sites was conducted by JPCE specialist waste management consultants, independent consultants who are not connected to the municipality.

The costs are determined by calculating the volumes of excavations, materials required and legal requirements according to the footprint of each individual site. The previous year's figures are escalated using the latest CPI of 6%. The individual rates are then again cross-checked to determine if they are still in line with current rates for similar activities and adjusted accordingly.

The scheduled dates of total closure and rehabilitation for the operational site is at present anticipated to take place between 2016 and 2031.

The cost to rehabilitate all identified sites in the Overstrand are estimated at R 81,186,325 for the period.

Clearing of alien vegetation

The average cost of alien clearing within the Overstrand is derived from the actual expenditure of the Department of Environmental Affairs, working for water programme. During the financial year, the programme cleared 1,496 ha at a total cost of R1,176,318. This equates to an average cost of R786 per ha.

Approximately 10.81% of a total area of 6,659 ha must be cleared during the next 2 to 10 years and the estimated cost amounts to R 565,932 for the period.

Gratification payable

The cost of the gratification payable was based on employees not belonging to a pension fund up until February 2003 and is only payable on retirement. The estimated cost amounts to R 382,414 for the period.

Long service awards

A long-service award is granted to municipal employees after the completion of fixed periods of continuous service with the Municipality. The said award comprises a certain number of vacation leave days which, in accordance with the option exercised by the beneficiary employee, can be converted into a cash amount based on his/her basic salary applicable at the time the award becomes due or, alternatively, credited to his/her vacation leave accrual. The provision represents an estimation of the awards to which employees in the service of the Municipality at 30 June 2016 may become entitled to in future, based on an actuarial valuation performed at 30 June 2016, to the amount of R 10,586,528 for the period.

Discount rate:

A discount rate of 8.47% per annum has been used. This is derived by using a liability-weighted average of the yields corresponding to the average term until payment of long service awards, for each employee.

Key assumptions:

Discount rate of 8.47% (2015: 7.84%), a general salary inflation rate of 7.13% (2015: 7.03%) and a net discount rate of 1.25% (2015: 0.75%).

Leave pay

Annual leave accrues to employees on a monthly basis in accordance with the conditions of employment. Employees are entitled to 16 non-vested leave days and 8 vested leave days per annum, accumulated to a maximum of 48 leave days. The provision is an estimate of the amount due to staff as at the financial year-end, based on the value of leave and the estimated leave days to be forfeited. The estimated cost amounts to R 11,835,931 for the period.

It is not the municipality's policy to encash leave in the normal course of business, except upon resignation or retirement.

Overstrand Municipality

Financial Statements for the year ended 30 June 2016

Notes to the Financial Statements

Figures in Rand	2016	2015
-----------------	------	------

19. Provisions (continued)

Bonuses

Annual bonuses accrues to employees on a monthly basis, subject to certain conditions. The provision is an estimate of the amount due to staff as at the financial year-end, based on assumptions and the estimated cost amounts to R 7,962,841 for the period.

20. Payables from exchange transactions

Overstrand Municipality

Financial Statements for the year ended 30 June 2016

Notes to the Financial Statements

Figures in Rand	2016	2015
40. Commitments		
Authorised capital expenditure		
Already contracted for but not provided for		
• Property, plant and equipment	992,315	5,304,900
Not yet contracted for and authorised by accounting officers		
• Property, plant and equipment	87,363,754	103,914,091
Total capital commitments		
Already contracted for but not provided for	992,315	5,304,900
Not yet contracted for and authorised by accounting officers	87,363,754	103,914,091
	88,356,069	109,218,991

This committed expenditure relates to property, plant and equipment and will be financed by retained surpluses, mortgage facilities, existing cash resources, funds internally generated, transfers and subsidies received etc.

Operating leases - as lessor (income)

Minimum lease payments due		
- within one year	498,413	475,840
- in second to fifth year inclusive	713,502	1,125,583
- later than five years	2,924,764	3,011,096
	4,136,679	4,612,519

Certain of the municipality's property is held to generate rental income. Lease agreements are non-cancellable and have terms from 3 to 99 years. There are no contingent rents receivable.

Commitments are disclosed exclusive of VAT.

41. Contingencies

Contingent liabilities

Kleynhans Family Trust vs Overstrand Municipality

The applicant filed a notice of motion in the Western Cape High Court requesting that the municipality be ordered to ensure that the Fernkloof Estate is fully protected by electrified fencing that is designed to prevent unauthorised access to the estate.

In February 2015 the High Court found in favour of the Municipality by dismissing the claim with cost. The applicant filed an application for leave to appeal on 4 March 2015. The applicants delivered their Notice of Appeal on 4 September 2015. On 30 June 2016, our attorneys received a notice of application for the allocation of date for the hearing of an Appeal. Our attorneys on this basis are not in a position anymore to proceed with the taxation. In the circumstances, despite the fact that their right to proceed with the appeal has lapsed they are still entitled to apply for condonation. The appeal process will proceed at least until a decision regarding the condonation application has been handed down. The municipality's exposure is approximately R7,000,000.

Overstrand Municipality vs WSSA

The municipality received a review application from WSSA in the first week of September 2015 for purposes of setting aside an administrative decision to identify Veolia as the preferred bidder. The claim by the applicant is of a technical nature, with specific reference to whether the preferred bidders staffing as per the request for proposal achieved regulatory compliance.

The matter was set down for the 5th and 6th of June 2016. Senior Counsel argued for 2 days and judgment was reserved. The municipality's exposure is approximately R333,371.

Overstrand Municipality

Financial Statements for the year ended 30 June 2016

Notes to the Financial Statements

Figures in Rand	2016	2015
-----------------	------	------

41. Contingencies (continued)

Contingent assets

New Republic Bank

The municipality has an investment with New Republic Bank. The bank is under receivership since October 1999. Interest only accrued until 31 December 2007. There is no guarantee that the municipality will receive the full value of the investment. After the 2013 financial year-end, a dividend of R0.5268 in the rand on the capital amount still outstanding has been received. Therefore the portion of the impairment was reversed. This brings the total payout to 99.15% of the original investment.

Due to the fact that the majority of the debt still to be collected, by the receivers, involve some form of legal action, it is not possible to determine a date as to when the liquidation process will be completed.

Management impaired this investment from R2,631,821 to Rnil in the 2010/2011 financial year. The exposure is approximately R405,181.

42. Related parties

Relationships

Members of key management

Refer to note 28.1 to 28.7 and 29

There were no related party transactions that occurred during the period under review.

43. Comparative figures

The information presented below is only the statement of financial position and statement of financial performance items that have been affected by adjustments to comparative figures. The comparative figures have been adjusted for the following reasons:

Accounting errors:

Accounting errors relating to prior periods have been identified during the 2015/2016 financial period. These errors include mathematical errors¹, misapplication of accounting policies², oversight or misinterpretation of facts³ and effects of fraud⁴

Changes in classification:

The municipality reclassified its account structure to align as far as possible to the mSCOA tables issued in accordance with the Standard Chart of Accounts for Local Government Regulations. This necessitated the reclassification of comparative amounts as previously disclosed to those classifications aligned to the Standard Chart of Accounts.

The correction of errors and change in accounting policy detailed below has the following impact on the global opening balances as at 1 July 2014:

Assets:	Inventories	R 635
	Operating leases	R 5,846
	Other receivables non-exchange	R (500,194)
	Investment property	R (20,507,000)
	Property, plant and equipment	R 455,583,298
	Intangible assets	R 535,974
	Heritage assets	R 26,609,154
Liabilities:	Payables from exchange transactions	R (297,356)
Reserves:	Accumulated surplus	R (461,430,356)

44. Risk management

Financial risk management

Due to the largely non-trading nature of activities and the way in which they are financed, municipalities are not exposed to the degree of financial risk faced by business entities. Financial instruments play a much more limited role in creating or changing risks that would be typical of listed companies to which the IFRSs' mainly apply. Generally, Financial assets and liabilities are generated by day-to-day operational activities and are not held to manage the risks facing the municipality in undertaking its activities.

Overstrand Municipality

Financial Statements for the year ended 30 June 2016

Notes to the Financial Statements

Figures in Rand	2016	2015
-----------------	------	------

44. Risk management (continued)

The Finance directorate monitors and manages the financial risks relating to the operations through internal policies and procedures. These risks include interest rate risk and liquidity risk. Compliance with policies and procedures are reviewed by the internal auditors on a continuous basis and annually by the external auditors. The municipality does not enter into or trade with financial instruments for speculative purposes.

Internal audit, responsible for initiating a control framework and monitoring and responding to potential risk, reports periodically to the municipality's audit committee, an independent body that monitors the effectiveness of the internal audit function.

Liquidity risk

The municipality's risk to liquidity is a result of the funds available to cover future commitments. The municipality manages liquidity risk through an ongoing review of future commitments and credit facilities.

Credit risk

Credit risk consists mainly of cash deposits, cash equivalents, derivative financial instruments and trade debtors. The municipality only deposits cash with major banks with high quality credit standing and limits exposure to any one counter-party.

The Municipality manages credit risk in its borrowing and investing activities by only dealing with well-established financial institutions of high credit standing, and by spreading its exposure over a range of such institutions in accordance with its approved investment policies. Credit risk relating to consumer debtors is managed in accordance with the Municipality's credit control and debt collection policy. The Municipality's credit exposure is spread over a large number and wide variety of consumers and is not concentrated in any particular sector or geographical area. Adequate provision has been made for anticipated bad and doubtful debts. Additional information relating to the analysis of consumer debtors is given in note 13 to the financial statements.

Financial assets exposed to credit risk at year were as follows:

Counter parties with external credit rating (Fitch's):	2016	2015
Investments		
F 1	101,262,891	26,051,343
F 2	29,740,013	23,148,842
Counter parties without external credit rating:		
Receivables from exchange and non-exchange transactions		
Group 1	14,588,659	17,633,396
Group 3	11,461,112	9,903,249
Group 4	17,953,372	21,571,690
Consumer debtors		
Group 1	18,248,844	16,194,721
Group 2	818,498	838,230
Group 3	1,244,244	1,232,485
Group 4	37,516,333	35,023,123
Long term receivables		
Group 4	53,769	68,409

F1 = Highest credit quality. Indicates the strongest capacity for timely payment of financial commitments.

F2 = Good credit quality. A satisfactory capacity for timely payment of financial commitments.

F3 = Fair credit quality. The capacity for timely payment of financial commitments is adequate.

Group 1 = Speculative. Minimal capacity for timely payment of financial commitments, plus vulnerability to near term adverse changes in the financial and economic conditions.

Group 2 = Fair credit quality. The capacity for timely payment of financial commitments is adequate.

Group 3 = Good credit quality. A satisfactory capacity for timely payment of financial commitments.

Group 4 = Highest credit quality. Indicates the strongest capacity for timely payment of financial commitments.

Notes to the Financial Statements

Figures in Rand	2016	2015
-----------------	------	------

44. Risk management (continued)

Market risk

Interest rate risk

The municipality's interest rate risk arises from long-term borrowings. Borrowings issued at variable rates expose the municipality to cash flow interest rate risk. Borrowings issued at fixed rates expose the municipality to fair value interest rate risk. Municipality's policy is to maintain approximately 60% of its borrowings in fixed rate instruments. During 2016 and 2015, the municipality's borrowings at variable rate were denominated in the Rand.

The municipality limits its counterparty exposures from its money market investment operations by only dealing with well established financial institutions of high credit standing. No investment with a tenure exceeding twelve months shall be made without consultation with the councillor responsible for financial matters.

Consumer debtors comprise of a large number of ratepayers, dispersed across different industries and geographical areas. Ongoing credit evaluations are performed on the financial condition of these debtors. Consumer debtors are presented net of a provision for impairment. In the case of debtors whose accounts become in arrears, it is endeavoured to collect such accounts by "levying of penalty charges", "demand for payment", "restriction of services" and, as a last resort, "handed over for collection", whichever procedure is applicable in terms of Council's Credit Control and Debt Collection Policy.

Interest rate risk for trade and other payables is managed by ensuring that all payments are made within 30 days of receipt of statement, as prescribed by the MFMA.

Interest rate sensitivity analysis:

Financial assets:

If the average interest rate at a given date had been 100 basis points higher, with all other variables held constant, the fair value impact on the Statement of Financial Performance would have been R 195,890 (2015: R 171,988) with the opposite effect if the interest rate had been 100 basis points lower.

Financial liabilities:

If the average interest rate at a given date had been 100 basis points higher, with all other variables held constant, the fair value impact on the Statement of Financial Performance would have been R 43,122 (2015: R 51,209) with the opposite effect if the interest rate had been 100 basis points lower.

Cash flow interest rate risk

Financial instrument	Current interest rate	Due in less than a year	Due in one to two years	Due in two to five years	Due after five years	Total
Trade and other receivables - normal credit terms	13.96 %	44,209,765	13,618,154	-	-	57,827,919
Cash in current banking institutions	6.02 %	174,766,866	-	-	14,050	174,780,916
Fixed interest rate instruments	10.47 %	70,539,813	69,910,949	205,939,473	408,855,315	755,245,550
Variable interest rate instruments	9.19 %	1,202,156	1,111,592	2,088,783	-	4,402,531

-----------------	------	------

45. Unauthorised expenditure (continued)

The unauthorised expenditure for the 2014/2015 financial year was approved in terms of the 5th Adjustments Budget for 2014/2015, dated 22 January 2016.

46. Fruitless and wasteful expenditure

Opening balance	186,832	181,836
Plot clearing charges not collected	2,672	2,582
Sound equipment missing from Thusong Centre	-	8,000
Training costs	27,000	-
Injury on duty medical costs incurred	26,374	-
Recovered / written-off by council	(27,000)	(5,586)
	215,878	186,832

47. Irregular expenditure

Opening balance	1,234,206	4,547,590
Procuring goods and services without following any official procurement process	-	145,948
Irregular expenditure identified in current year but relating to prior years	-	647,695
Certified as irrecoverable and written-off / Recovered / Condoned	(1,040,915)	(4,107,027)
	193,291	1,234,206

Expenditure was incurred in contravention with the municipality's supply chain management policy. Irregular expenditure was approved in accordance with the supply chain management policy.

48. Actual operating expenditure versus budgeted operating expenditure

Refer to Appendix E(1) for the comparison of actual operating expenditure versus budgeted expenditure.

49. Actual capital expenditure versus budgeted capital expenditure

Refer to Appendix E(2) for the comparison of actual capital expenditure versus budgeted expenditure.

50. Deviation from supply chain management regulations

Paragraph 12(1)(d)(i) of Government gazette No. 27636 issued on 30 May 2005 states that a supply chain management policy must provide for the procurement of goods and services by way of a competitive bidding process.

Paragraph 36 of the same gazette states that the accounting officer may dispense with the official procurement process in certain circumstances, provided that he records the reasons for any deviations and reports them to the next meeting of the and includes a note to the financial statements.

Refer to pages 61 to 74 for the supply chain management deviations.

51. Multi-employer retirement benefit information

Overstrand Municipality makes provision for post-retirement benefits to eligible councillors and employees, who belong to different pension schemes.

One councillor belongs to the Pension Fund for Municipal Councillors.

Employees belong to a variety of approved Pension and Provident Funds as described below.

These funds are governed by the Pension Funds Act and include both defined benefit and defined contribution schemes.

All of these afore-mentioned funds are multi-employer plans and are subject to either a tri-annual, bi-annual or annual actuarial valuation, details which are provided below.

Overstrand Municipality

Financial Statements for the year ended 30 June 2016

Notes to the Financial Statements

Figures in Rand	2016	2015
-----------------	------	------

51. Multi-employer retirement benefit information (continued)

The only obligation of the municipality with respect to the retirement benefit plans is to make the specified contributions. Where councillors / employees leave the plans prior to full vesting of the contributions, the contributions payable by the municipality are reduced by the amount of forfeited contributions.

The total expense recognised in the Statement of Financial Performance of R33.6 million (2014: R40.0 million) represents contributions payable to these plans by the municipality at rates specified in the rules of the plans. These contributions have been expensed.

DEFINED BENEFIT SCHEMES

Cape Joint Pension Fund:

The scheme is subject to an annual actuarial valuation. The last statutory valuation was performed as at 30 June 2015. The scheme both operates a Defined benefit and Defined contribution scheme.

Defined Benefit Scheme:

The contribution rate payable under the defined benefit section is 27%, 9% by the members and 18% (up to 31 January 2012) and 23.06% (from 1 February 2012) by their councils. The actuarial valuation report at 30 June 2015 disclosed an actuarial valuation amounting to R2.136 billion (2014 : R3.632 billion), with a net accumulated surplus of R21.948 million (2014 : R23.343 million (deficit)), with a funding level of 102.4% (2014 : 104.4%).

Defined Contribution Scheme:

The actuarial valuation report at 30 June 2015 indicated that the defined contribution scheme of the fund is in a sound financial position, with assets amounting to R1932.7 million (2014 : R566.7 million), net investment reserve of R0 million (2014 : R0 million) and a funding level of 100.0% (2014 : 100%).

South African Local Authorities Pension Fund (SALA):

The scheme is subject to an annual actuarial valuation. The last statutory valuation was performed as at 1 July 2015.

The statutory valuation performed as at 1 July 2015 revealed that the assets of the fund amounted to R13.413 billion (2014 : R12.658 billion), with funding levels of 100% (2014 : 100%). The contribution rate paid by members was 9% and by Council 18% and is sufficient to fund the benefits accruing from the fund in the future.

DEFINED CONTRIBUTION SCHEMES

Cape Retirement Fund for Local Government:

The scheme is subject to an annual actuarial valuation. The last statutory valuation was performed as at 30 June 2015.

The statutory valuation performed as at 30 June 2014 revealed that the assets of the fund amounted to R18.322 billion (2014 : R17.212 billion), with funding levels of 100% and 112.1% (2014 : 99.9% and 112.6%) for the Share Account and the Pensions Account respectively. The contribution rate paid by the members (8%) and the municipalities (19%) is sufficient to fund the benefits accruing from the fund in the future.

Municipal Councillors Pension Fund:

The scheme is subject to an actuarial valuation every three years. The last statutory valuation was performed as at 30 June 2015.

The statutory valuation performed as at 30 June 2015 revealed that the assets of the fund amounted to R2.552 billion (2014 : R2.229 billion) with funding levels of 101.08% (2014 : 98.83%). The contribution rate paid by the members (13.75%) and the municipalities (15.00%) is sufficient to fund the benefits accruing from the fund in the future.

Overstrand Municipality

Financial Statements for the year ended 30 June 2016

Notes to the Financial Statements

Figures in Rand	2016	2015
-----------------	------	------

51. Multi-employer retirement benefit information (continued)

South African Municipal Workers Union National Provident Fund:

The last statutory valuation was performed as at 30 June 2014.

The statutory valuation performed as at 30 June 2014 revealed that the assets of the fund amounted to R6.574 billion (2011 : R4.022 billion) with funding levels of 111.7% (2011 : 111.1%). The contribution rate paid by the members not less than 7.50% and Council not less than 18.00% is sufficient to fund the benefits accruing from the fund in the future.

52. Distribution losses

Water

Technical losses

Rand value	149,143	300,931
No. of units (kl)	63,210	95,586
% loss	0.88 %	1.34 %

Non-technical losses

Rand value	5,299,387	5,018,708
No. of units (kl)	1,427,752	1,281,256
% loss	19.97 %	17.99 %

Electricity

Technical losses

Rand value	7,475,129	6,397,364
No. of units (kWh)	11,865,283	11,499,184
% loss	5.00 %	5.00 %

Non-technical losses

Rand value	2,003,861	986,495
No. of units (kWh)	3,180,732	1,773,212
% loss	1.34 %	0.77 %

Non-technical water losses to the amount of R 5,299,387 (19.97%) were incurred as a result of unmetered connections, aging pipeline infrastructure, burst pipes, old reticulation networks and other leakages. Alien vegetation infestation in watercourses and catchment areas are also a contributing factor as well as technical water losses to the amount of R 149,143 (0.88%).

Cost per kilolitre was calculated using the following basis:

The cost of water treatment and raw water is used in calculating the cost per kilolitre as follows:

General expenses (excluding departmental charges), direct labour attributable to the purification of water, depreciation based on the cost of attributable infrastructure assets and all repair and maintenance.

The total expenditure is then divided by the total kilolitres of water purified during the year and this equals the cost per kilolitre.

Electricity losses to the amount of R 7,475,129 (5.00%) were incurred as a result of technical losses caused by the nature of electricity and the manner of its distribution, via the network, status/condition and age of the network, weather conditions and load on the system as well as non-technical losses, e.g. theft and vandalism, to the amount of R 2,003,861 (1.34%).

53. Awards to close family members of persons in the service of the state

Refer to pages 75 to 76 for detail relating to awards made to close family members of persons in the service of the state during the 2015/2016 financial year.

Refer to the 2014/2015 Annual report for comparative detail.

Overstrand Municipality

Financial Statements for the year ended 30 June 2016

Notes to the Financial Statements

Figures in Rand	2016	2015
-----------------	------	------

54. Budget differences

Material differences between budget and actual amounts

Statement of Comparison of Budget and Actual Amounts and Appendix E(1)

Statement of Financial Performance and Appendix E(1)

Revenue:

Rentals – 85.6% - Changes to SCOA classifications of revenue between rentals and other revenue has occurred.

Licences and permits – 10.7% - Received Filming and Trading licences above the expected revenue trend.

Other income – 39.2% - Revenue received in excess of budget amount. This is due to various factors, eg. increase in volume of building plans submitted and additional developers contributions and management fees revenue.

Interest Received – 31.0% - Interest received in excess of budget due to increased cash on hand and increase in interest rates.

Penalties imposed on property rates – (36.6%) – Fewer property owners defaulted on payment deadlines than budgeted for.

Fines – (25.0%) – The reduction in revenue resulted from a change in estimate.

Expenditure:

Depreciation and Amortisation – 10.3% - In collaboration with NT an asset management system was implemented leading to a change in estimate for depreciation.

Impairment loss – 100.0% – Budgeting subject to impracticalities for the determination of the outcome in advance.

Operating Lease rentals - (33.5%) - Expenditure incurred was less than anticipated.

Debt Impairment – (16.1%) – Reduced expenditure due to a change in estimate for the impairment of fines.

Inventory/Materials – (62.7%) – The reduction in the expenditure is due to less low cost housing inventory being transferred than anticipated.

Contracted services – (31.8%) – Reduction of expenditure due to cost containment measures.

General Expenses – 69.3% – Reduction of expenditure due to cost containment measures.

Other revenue and costs:

Loss on disposal of assets – 100% - Budgeting subject to impracticalities for the determination of the outcome in advance.

Fair value adjustments – 184.6% - Budgeting subject to impracticalities for the determination of a more accurate outcome in advance.

Statement of Financial Position

Inventories – 98.5% - The increase in inventory is due to less low cost housing inventory being transferred to expenditure than anticipated.

Receivables from exchange, receivables from non-exchange, operating leases and VAT – The budget does not provide for detail splitting of the various types of receivables therefore it is shown as one line item in the budget but separate line items in the financial statements. All these items need to be seen as a whole to determine the actual variance – 26.1%. The main contributor to this variance would be the VAT receivable amounting to R5.7m

Consumer Debtors – 11.7% - This variance relates mainly to the year on year increase in consumer accounts due to increase rates and service tariffs.

Overstrand Municipality

Financial Statements for the year ended 30 June 2016

Notes to the Financial Statements

Figures in Rand	2016	2015
-----------------	------	------

54. Budget differences (continued)

Cash and Cash Equivalents – 74% - Additional cash generated due to increased revenue above budget and decreased budgeted expenditure due to cost containment measures.

Property Plant and Equipment and Heritage Assets - The budget does not provide a separate item for heritage assets and therefore it is included in PPE. All these items need to be seen as a whole to determine the actual variance – 13.5%. In collaboration with NT an asset management system was implemented leading to a change in asset values.

Intangible assets – 26.1% - In collaboration with NT an asset management system was implemented leading to a change in asset values.

Finance leases and borrowings - (5.8%) (in total but finance leases by itself is 100%) - The budget does not provide a separate item for finance leases and therefore it is included with borrowings. These items need to be seen as a whole to determine the actual variance. The same principle applies with regard to the long term portions. The actual variance is therefore below 10%.

Provisions and employee benefit obligation - 4.0% (in total but employee benefits by itself is 100%) - The budget does not provide a separate item for employee benefit obligation and therefore it is included with provisions. All these items need to be seen as a whole to determine the actual variance - (9.4%). The same principle applies with regard to the long term portions. The actual variance is therefore below 10%.

Unspent conditional grants - 100% - Budgeting subject to impracticalities for the determination of the outcome in advance.

Housing Development Fund – (17.4) – The reduction in the fund is due to Provincial Department of Human Settlements approval of expenditure of R400 000 for socio-economic development study.

Accumulated Surplus – 20.1% - The increase in accumulated surplus is largely due to the implementation of the asset management system in collaboration with NT leading to a change in asset values.

Appendix E(2)

Waste management - 66% - In collaboration with NT an asset management system was implemented leading to a change in the asset management policy.

Planning and development - 33% - In collaboration with NT an asset management system was implemented leading to a change in the asset management policy.

Sport and recreation - (35%) - Certain projects rolled over to the next financial year.

Water - (13%) - Certain projects rolled over to the next financial year.

Electricity - (20%) - Certain projects rolled over to the next financial year.

Corporate services - 19% - In collaboration with NT an asset management system was implemented leading to a change in the asset management policy.

Public safety - (70%) - Certain projects rolled over to the next financial year.

Overstrand Municipality

Notes to the Financial Statements

Figures in Rand	2016	2015
-----------------	------	------

55. Public-private partnership

Gansbaai Landfill Site

The municipality entered into a public-private partnership during the 2010/11 financial year. The service consists of the chipping of garden waste to reduce the transportable volume and the hauling by road of all waste from the Public Drop-offs at Stanford and Pearly Beach to the Gansbaai Landfill as well as the operation of these two Public Drop-offs and the Gansbaai Landfill. The agreement is for a period of eight years terminating in the 2018/19 financial year.

The following facilities are made available to the Contractor:

Gansbaai Landfill Site:

Weighbridge, Office, ablution facilities, kitchen, Material Recovery Facility, Public Drop-off and limited container storage,

Stanford Drop-off:

Access Control Building, ablution facilities and limited container storage

Pearly Beach Drop-off:

Access Control Building, ablution facilities and limited container storage.

Equipment and materials made available to the Service Provider by the Employer, or purchased by the Service Provider with funds provided by the Employer for the performance of the Services shall be the property of the Employer and shall be marked accordingly.

The contract may be terminated by either party due to non-performance.
